August 27, 2020

Dear Parents/Guardians and Staff:

We wanted to send a quick update in regards to West Bonner County School District's Reopening Plan. As we mentioned, when we sent the first plan, this is a living document and will be updated as recommendations from local and national health officials change. We have updated the plan to more closely align with the categories of community spread as defined by Panhandle Health District. Category 1 is when West Bonner County School District is operating as normal and will be used when community spread is from no (green) to minimal (yellow). Category 2 would be a hybrid schedule and will be used when the community spread is moderate (orange). Category 3 is remote learning and will be used if our community spread level is substantial (red).

Last night the Board of Trustees set our current Reopening Category at 1, following Panhandle Health District's (PHD) community spread level of minimal. Parents can find this information at <https://panhandlehealthdistrict.org/covid-19/>. As stated on PHD's website this is subject to change weekly. Superintendent Anselmo will send an update to parents on Fridays, if there will be a change in Category for the following week.

As mentioned previously, we do have a complete remote option for those who are not comfortable/unable to return. Contact your building principals for information on how to sign-up for that option. If you have any further questions, please contact your building principals.

Sincerely,

Paul Anselmo
Superintendent
West Bonner County School District #83
